LL Having worked across different geographies and adapting to different microcultures throughout, I believe, synchrony between user and environment achieves sustainability by default in Design.

In architecture, one carefully manoeuvres across paradigms of design to ultimately instill a timeless spatial experience. I bank on allied fields & inter-disciplinary skills, in my attempt to make that experience, a constant return of favour to the context. JJ

## Independent Architecture practice established as The Civic Studio since Feb 2014

**Institutional spaces:** Design & Execution of VVIP vestibule of Nuclear power plant BHAVINI in Kalpakkam, Chennai, in 2015. Area: 6805SQF. Project cost : Rs. 11,00,000/-

## Academic Experience

Multi-disciplinary and collaborative learning in design education

**May'13 - Nov'13** Teaching Assistant with Prof. Rajan Rawal, CEPT University for PG students of sustainable design.

**Aug'14 - May'16** Worked on energy Audit of CEPT campus, as part of the apprenticeship with Prof. Rawal.

**Feb'16 - Jul'17** Consultant Faculty and course coordinator for Interior Architecture & design, Pearl Academy (Affiliated with Nottingham Trent university)

- Notable Accomplishments: have conducted & organized Mud-Earth workshop with Dharmalay, in Himachal for Students of PEARL ACADEMY
- Conducted workshops for students in Mumbai campus & was involved in incubation & launch of that campus in 2015

Part time lecturer with NIFT, Chennai for Fashion Design & Fashion Communication Students. My role involved training and exposure to inculcate multi-disciplinary approach to design thinking.

Lecturer for Dip. In Interior Design at Loyola College of Arts, Chennai, in partnership with Spocetieror.

**Oct'17 - Present.**

Assistant Professor in School of Design, Pearl Academy, Delhi.

- Actively involved in research, curriculum planning and innovations in Academic development.
- Curate conferences and events for the institution amongst the design fraternity on future of design education, notably 'what's Next'18, conducted in Mumbai on Feb'19
- Adopt interdisciplinary approaches to teaching across students of product, design, communication design & Interior Design.

## Technical competencies

### Softwares

Revit Architecture, Auto CAD, Adobe CS, SketchUp, Vray, Grasshopper, Rhino, EnergyPlus, Design Builder, Processing, Radiance, Office MS, Soft Skills

Well versed in communication through English, Tamil & Hindi, Capable of working well in a team and lead dutifully.

## Other Interests
